## SOFTWARE ENGINEER

Inquisitive self-driven full stack web developer with a passion for exploring modern technologies. Transitioned from Software Sales to Software Development based on my natural enthusiasm towards algorithmic problem-solving and eagerness to be a life-long learner. I believe that any complex problem can be broken down into manageable chunks and solved with due diligence. I am *incredibly* passionate about **everything** I do, from snowboarding and golfing to exploring new technologies via coding, photography, video editing, projection mapping, and music production & performance.

## TECHNICAL SKILLS

JavaScript, React, Ruby, Rails, Node, Express, SQL, MVC, ORM, Salesforce, Adobe Suite, Ableton Live

## TECHNICAL PROJECTS

### Mode-ify - [Github](#) | [Demo](#)

Piano keyboard with chord and progression builders.

- Multiple suggestion and exploration features to help musicians write more interesting and complex music.
- Flexed my knowledge of event listeners to enhance the hands on user experience.
- Explored Node.JS with Knex and Express to implement Auth and saving capabilities.
- Deep dove into Sharp11 and Tonal.JS music theory libraries / modules.
- Implemented functional components and hooks to manage state.

### Lyricize - [Github](#) | [Demo](#)

Lyrical inspiration tool featuring an amazing helper form to find rhymes, synonyms, and more.

- Employed 6 unique 3rd party API's to empower features and suggestions.
- Implemented a 14 input form that fetches dynamically based on user input.
- Applied deeper understanding of MVC and RESTful API's.
- Utilized Ruby on Rails w/ Postgres to enable saving and editing more complex data types.

### SetLy - [Github](#) | [Demo](#)

Set Builder and show data tracker for DJ's & performers, plus concert data for concert-goers.

- Implemented RESTful API via Ruby on Rails & SQLite3.
- Utilized JSON Web Tokens and localStorage to store encrypted user information client-side.
- Employed Drag and Drop using Vanilla JS to enhance user engagement and UX.

## EXPERIENCE

**National Brand Relationship Manager**, Signpost, Denver, CO 06/2014 - 06/2020

- Pioneered the National Brands team of 10, established and grew key franchise accounts.
- Managed the full sales cycle to prospect, contact, demo, and close new and repeat deals.
- Promoted 8 times over 6 years from Local SMB Sales Rep to National Brand Relationship Manager.
- 130% to goal running total average, top 5 rep in company history, ~\$2m Annual Recurring Revenue.
- Helped over 650 local businesses grow and stay connected with their customer base.

**Hotel Front Desk, Night Audit, and Ski School Instructor**, Durango Mountain Resort, Durango, CO 11/2010 - 06/2014

- Promoted positive guest relations to all individuals approaching the front desk, ~50-100 patrons per day.
- Attended to guest needs, and coordinated with other departments to ensure high guest satisfaction.
- Ran night audit reports to verify and balance records of daily revenue and expense transactions, ~\$30m annual.
- Taught kids aged 4-80+ to ski or snowboard, with a focus on positivity and safety.
- Worked individually and as a team to create the best vacation environment for guests.

## EDUCATION

**Flatiron School**, Denver, CO 09/2020 - 02/2021

Full Stack Software Engineering, React and Ruby on Rails program

**Fort Lewis College**, Durango, CO 12/2012

Bachelor of Arts (BA) Double Major in Marketing, and Tourism & Hospitality Management
